

Mosaic's Co-op Program

88% of our
CO-OPS
accept full-time roles with Mosaic

About Us

The Mosaic Company is the world's leading integrated producer of concentrated phosphate and potash – two of the three most important nutrients in agriculture. When you join Mosaic, you join more than 13,000 employees around the world all focused on one mission – to help the world grow the food it needs. The people of Mosaic work with purpose to maximize efficiencies and minimize our environmental footprint. We strive to be a thoughtful and engaged neighbor, using our financial resources, expertise and innovative spirit to commit to good corporate citizenship.

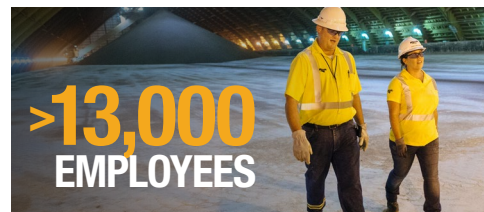

What We Need

Fresh ideas and thinking in a variety of disciplines including:

- Chemical Engineer

What You Can Expect

- Meaningful work experiences that help us to become better and provide you growth opportunities
- In-depth exposure to our operations and leadership
- The opportunity to be part of our digital transformation – we may be a traditional industry, but we are leveraging cutting edge technology to become the most efficient crop nutrient company in the industry
- A true employment experience with salary compensation, 401K participation, paid holidays, relocation assistance and flex schedules

Connect With Us!

Mosaic's mission to help the food grow the food it needs is a big job and we need talented interns and co-ops to bring fresh and innovative thinking to the exciting work we do.
